TWENTY-FIFTH YEAR

EARLINGTON, HOPKINS COUNTY, KY., FRIDAY MAY 8, 1914

No. 37

## LEAVE MONDAY FOR ATLANTA

Headed by The Earlington Band  
Rizpah Patrol Shriners and  
Their Friends Are Off

FOR THE LAND OF  
SUNSHINE AND FLOWERS

Headed by Noble Geo. C. Atkinson and another delegate to be elected last night, the official representatives, and under the command of Capt. E. B. Hardin, Rizpah's famous patrol, twenty-five strong, and the Earlington Band, with sixteen members, will leave Madisonville next Monday morning at 8:30 on a special train for Atlanta, where they will attend the thirty-ninth annual meeting of the Imperial Council of the Ancient Arabic Order Nobles of the Mystic Shrine, which will be in session in the Southern city four days next week.

Illustrious Potentate E. L. Wise, who was to have been one of the representatives from Rizpah, is in bad health and at present is in Hot Springs and has sent word back home that he will not likely be able to join the patrol. Every member of both the band and patrol regrets that the popular "Pot" will not be with them and he will be missed.

The special train that will take the Shriners to the land of Sunshine and flowers will start out of Evansville, with Hadji's patrol and band and a number of the wives and others from that point. This train is due to leave here at 8:40.

In addition to the band and patrol, many Shriners from Madisonville, Earlington and other points will make the trip, and a number of the wives of the Nobles have consented to accompany them this year as chaperones.

This special train will be made up of Pullmans, modern day coaches and baggage cars and while last year Rizpah was booked on to a special train out of St. Louis composed of several temples, this year the entire train will be for Earlington and Madisonville Shriners and their friends.

### Health a Factor in Success

The largest factor contributing to a man's success is undoubtedly health. It has been observed that a man is seldom sick when his bowels are regular--he is never well when they are constipated. For constipation you will find nothing quite so good as Chamberlain's Tablets. They not only move the bowels but improve the appetite and strengthen the digestion. Sold by All Dealers.

### Hurley's Reason For Painting Costing Too Much

First, you try and get the cheapest man. It makes no difference whether he is an experienced painter or not, you let him do your work. If his business has gotten slack in the mules, carpentering, trimming, plumbing, farming, ditching, or whatever his trade may be, if he can hold a brush straight, people have drawn the idea that he is a painter. And if he bids three or four dollars cheaper he gets the work, regardless of how long the man has been in the painting business, who is just a little higher. Then the next year you are ready to paint again, and say the paint you used last year was no good at all. It is not the paint that goes to the bad, it is the man who mixes it, that causes it to fail. He does not know how to mix his paint. He goes ahead and uses enough Japan Dryer and Turpentine to burn up a town, much less a house. The turpentine and dryer of course are so strong that they kill the oil and then evaporates, leaving the lead so dry that it comes off in flakes, or powders off, leaving a house in a worse condition than if it had never been painted.

Second, you are cautious about who mixes your medicine. Now, think about your painter and painter. He should be as well up in his line. Do not pay \$25.00 for your paint and \$12.00 for your painter, and the next year the same thing over; but get a man who knows how to make it last about four years, for a little more money. The people of Earlington have been fooled long enough by being led to believe that the black damp causes failure in house paint and colors. There is nothing to this, because the acids that the colors are made from are so strong to be turned, and it will not make the lead and oil peel off. I cannot keep your house from getting dirty, but I can make it hold its color and paint.

Third, the new painter's ideas of today, first to get a brush, and next a turpentine can. So cut out the dryer or awhile and let Hurley do your work this year, for he has had all these experiences and need not have them again. Do not send to any other town for your workman, but talk to Hurley about what you want done. That won't cost you anything. Ask Whitford where I am at work.

W. C. HURLEY.

### Cure for Stomach Disorders

Disorders of the stomach may be avoided by the use of Chamberlain's Tablets. Many very remarkable have been effected by these tablets. Sold by All Dealers.

### 'TLL NOT RESIGN' HUERTA TELLS LONDON PAPER

Times Declares Mexican Situation Is Too Tense to Last.

London, May 6.--Provisional President Huerta, in an interview with the correspondent in Mexico City of the Daily Mail yesterday, said: "I have no thought of resigning."

The Times, in an editorial article on the Mexican situation today, says:

"The position is too tense to last. Peace hangs by a very slender thread which the first untoward incident may snap. If mediation is to preserve peace mediation must do its work quickly and the difficulties in its way seem almost insurmountable. If President Wilson insists that General Huerta be eliminated and General Huerta obstinately refuses to submit to that operation, mediation will have ended before it has well begun."

### GOOD ROADS AND SCHOOLS.

The rural population is more willing to support better schools today than at any previous time. It is being realized that all educational activities or agencies must be more or less correlated, and, more than all else, that they must be made accessible to the children. In many counties here bad roads prevail, most of the schools are of the antiquated one-room variety. They are usually located along bad roads, which during the winter, when the schools are usually in session, become so nearly impassable as to make it difficult for the children to reach them. This condition causes irregular attendance and restricts the educational opportunities of the child. Not only this, but it often impedes the economic consolidation of these smaller schools into larger, stronger graded schools, with high school courses, directed by a competent principal and corps of teachers, according to the Office of Public Roads, U. S. Department of Agriculture.

On the other hand, in counties which have improved their roads, schools are easily reached, the average attendance is greater, the efficiency largely increased and economic consolidation made possible. Regular attendance at school means consistent and regular growth of both school and pupil, and consolidation of schools means a maximum efficiency at a minimum of cost. It is also noteworthy that there is a marked tendency for the consolidated school to become the social and intellectual center of the community. Most Modern rural school houses are so constructed as to serve the community as gathering places for various kinds of public meetings, and where vans are used to convey the children to school during the day, they are frequently pressed into service to haul farmers and their wives to institute work, lectures, or entertainment at the schoolhouse. The consolidated school becomes a sort of community center to which all educational and social activities converge, and in order that it may properly perform that function all of the highways leading to it should be improved as to render it readily accessible throughout the year.

### City Sounds.

"Do you feel like a plate of noodle soup?" asked the waiter. "No, I'm not makin' any noise, am I?"--New York World.

### GEN. FUNSTON GIVEN FREE HAND TO FIGHT MEXICONS

If it Becomes Necessary in His Judgment to Take Action.

Washington, May 6.--General Funston today was given a free hand to fight or take any steps necessary to protect the American forces now in possession of Vera Cruz.

Orders have gone from the War Department to Funston authorizing him to extend his lines as far as "in his judgment it is necessary."

This, it was explained, gives the American commander virtually a free hand in dealing with the situation at Vera Cruz, and it was said that the American lines would at once be extended and heavy fortifications thrown up.

### Coughed for Three Years

"I am a lover to your godsend to humanity and science. Your medicine, Dr. King's New Discovery, cured my cough of three years standing," says Jennie Flemming, of New Dover, Ohio. Have you an annoying cough? Is it stubborn and won't yield to treatment? Get a 50-cent bottle of Dr. King's New Discovery today. What it did for Jennie Flemming it will do for you, no matter how stubborn and chronic a cough may be. It stops a cough and stops throat and lung troubles. Relief or money back. 50c and \$1.00 at your druggists. Bucklen's Arnica Salve for Pimples.

### SQUIRREL HALTS TRAFFIC ON LINE FOR 40 MILES

Interrupts Service on Rockford System by Nibbling Wire Insulation.

Beloit, Wis.,--Forty miles of interurban railroad was put out of commission for two hours when a squirrel nibbled thru the insulation of the high-tension wires here, burning out fuses and stopping all cars between Janesville and Cherry Valley, Ill., of the Rockford Interurban Railway system. Employees at the local power house heard the loud report that followed when his squirrelship bit in the copper wire carrying 13,500 volts of alternating current. The squirrel was electrocuted.

Uchi! Uchi! Uchi! Scratch! Scratch! Scratch! The more you scratch, the worse the itch. Try Doan's Ointment. For eczema, any skin itching, sore a box.

### COURIER VACATION CONTEST

In this issue The Courier announces its annual Golden Vacation Contest for school boy and girls. The first prize is a tour of Europe or \$500 in gold, and there are 28 other tours and trips. The contest opens May 10th and should attract many candidates in this vicinity.

### FOR STOMACH TROUBLE

John W. Skillen of Sidney, Ohio, Has Found a Remedy.

Experts declare that the reason stomach disorders are so common in this country is due to hasty and careless habits of eating. Stomach troubles and run-down conditions usually go together.

John W. Skillen of Sidney, Ohio, says: "I had a bad stomach trouble for years, and became so weak that I could hardly walk or do any work. My appetite was poor, and it seemed impossible to get any relief. Since taking 'Vinol' I find a remarkable improvement in my health, my digestion is much stronger, and I have gained in weight. I would not be without Vinol."

Vinol makes weak stomachs strong because it strengthens and tones up the weakened, tired and overtaxed nerves of the digestive organs. Vinol is easily assimilated by the weakest stomachs, and is delicious to the taste. Try a bottle of Vinol with the understanding that your money will be returned if it does not help you.

P. S.--Stop scratching, our Sazo Salve stops itching. We guarantee it. St. Bernard Mining Co., Incorporated, Drug Department, Special Agents.

### Squirrel Utility

If it were not for squirrels the Department of Agriculture would be greatly handicapped in its efforts to reforest the 15,000,000 acres of unproductive land in national forests. Seeds of the coniferous species, especially the pine, are largely planted, and an enormous amount of seed is necessary. Three years ago fifty-three tons of seed were gathered. About one pound of seed can be obtained from a bushel of pine cones. Unless these cones are gathered before they open and fall the seed will be lost. But picking them like apples is a difficult matter. Fortunately, the squirrels feed upon the seed. They cut off the cones and store them away for winter. What is curious (and an advantage also) is that generally but one variety of cone is stored in a cache.

The Department establishes large camps of cone harvesters who are paid by the bushel. These men simply search for the squirrels' hiding places and steal the animals' store. This is not as heartless as it appears, for the animals store up far more food than they can use, so they do not suffer from the human depredations. But the squirrel is not slow to learn, and he promptly and enthusiastically retaliates on the harvesters. The Department relates that one French Canadian in its employ, who has seen the profits on his day's work vanish, thus expressed his disgust: "Zee leetle thief! I swipe heem one sack, and heem swipe me two sack!"

One's sympathies must naturally go out to the mischievous squirrel whose activities are contributing so much to the great work of reforestation.

Did you ever notice that the plain cuss, who just does his day's work, then goes home, winds the clock and puts the cat out, never hollers very much about the "rights of the common people?"--Seedings.

### College Army Camps to Open in Two Months.

Washington, May 6.--Army camps for college students will open in four or five different sections of the country two months from today. The youths will find the camps a pleasant place to spend the vacation and cheap. The cost will be only \$17 for five weeks of the regular army fare. Transportations and \$7 for equipment will have to be paid by the men joining the camps, the objects of which are to give the collegians a short course in military training to prepare them for war. The War Department will furnish coats, blankets, tents, cooking outfits and all other articles necessary for camp life.

### An Editor's Easy Life

It is easy to be an editor, the Normal Bulletin says. To run a newspaper successfully a man has merely to be able to write poems, discuss the tariff and money questions, umpire a base ball game, report a wedding, saw wood, describe a fire, so that the readers will shed their wraps, make \$1 do the work of \$10, shine at a dance, measure calves, abuse the liquor habit, test whiskey, subscribe to charity, go without meals, attack free silver, wear diamonds, invent advertisements, sneer at snobbish, overlook scandalous, praise babies, delight pumpkin raisers, minister to the afflicted, lead the disgruntled, fight to a finish, set type, mould opinion, sweep out the office, speak at the prayer meeting, and stand in with everybody. And in addition to the above essentials the poor editor has to print a paper once a week--Publishers Auxiliary.

Accidents will happen, but the best regulated families know Dr. Thomas' Eucalypti Oil for such emergencies. Two sizes 25c and 50c at all drug stores.

## HOPKINS COUNTY CROP CONDITIONS

Farm Agent Taylor Tells of Progress Being Made by Farmers

NATIONAL RESOURCE OF THE COUNTY

Chas. P. Taylor, Hopkins county farm demonstration agent, who is doing a great work in this county and is kept on the go every day, in the week, made the following statement yesterday with reference to farm conditions and his work:

"In driving past field after field of prepared corn and tobacco land one cannot help from noticing the splendid condition the land is being put in. Ground broken last fall and winter is working in splendid condition and many farmers have noticed there are not as many cutworms as in the ground left unbroken until spring. The winter freezes have done much toward insuring a good crop on land plowed early."

"Many orchards have been sprayed far San Jose Scale and now is the time to spray for good fruit. There is plenty of fruit left to pay one well for spraying. The young fruit should be well coated with arsenate of lead to prevent the worms from eating their way into it. Many orchards should be sprayed this fall and again in the spring to kill the scale insects."

"The natural resources of Hopkins county are great and if we would make intelligent use of these farming could be made both pleasant and profitable. Nature never intended that a field should lay unprotected all winter. If left to take care of the field herself Nature puts a coat of grass and weeds on for protection. Tobacco and corn fields should not be allowed to go over winter without a cover crop. Wheat winter oats and rye are the principal cover crops in Kentucky."

A healthy man is a king in his own right, an unhappy man an unhappy slave. For impure blood and sluggish liver, use Murrell's Blood Bitter. On the market 33 years. \$1.00 a bottle.

### CEREMONIAL HELD BY RIZPAH'S

In Madisonville Thursday Afternoon.

Rizpah's "Last Chance" ceremonial was held in Madisonville yesterday afternoon and some twenty novices endured the tortures of the journey across the desert in order to have the privilege of wearing the fez and joining in the pilgrimage to Atlanta next Monday. Candidates for the Shrine were there from many sections of Western Kentucky and quite a few visitors were present from Evansville, Henderson, Owensboro, Hopkinsville and other places. The business session was held at 4 o'clock, the parade, headed by Rizpah's famous Arab Patrol, in their handsome new white military uniforms took place at 8:30. A splendid luncheon was served in the Temple at 6 o'clock.

### USE "TIZ" FOR SORE, TIRED, SWEATY FEET

"TIZ" makes sore, burning, tired feet fairly dance with delight. Away go the aches and pains, the corns, callouses, blisters and bunions.

"TIZ" draws out the acids and poisons that puff up your feet. No matter how hard you work how long you dance, how far you walk, or how long you remain on your feet, "TIZ" brings restful foot comfort. "TIZ" is wonderful for tired, aching, swollen, smarting feet. Your feet just tingle with joy; shoes never hurt or seem tight.

Get a 25 cent box of "TIZ" now from any druggist or department store. End foot torture forever--wear smaller shoes, keep your feet fresh, sweet and happy. Just think! A whole year's foot comfort for only 25 cents.

# ROYAL BAKING POWDER

Is the Housewife's  
Greatest Help.

WHAT so tempting to the laggard appetite as a light, flaky, fruit short cake or a delicate hot biscuit?

Royal makes the perfect short cake, biscuit and muffin, and improves the flavor and healthfulness of all risen flour-foods.

It renders the biscuit, hot-bread and short cake more digestible and nutritious, at the same time making them more attractive and appetizing.

Royal Baking Powder is indispensable for the preparation all the year round of perfect foods.
